LOCATION: unnamed tributary to Glady Fork near Dunlap in Sequatchie County; Lat 35.5210°N, Lon 85.4578°W

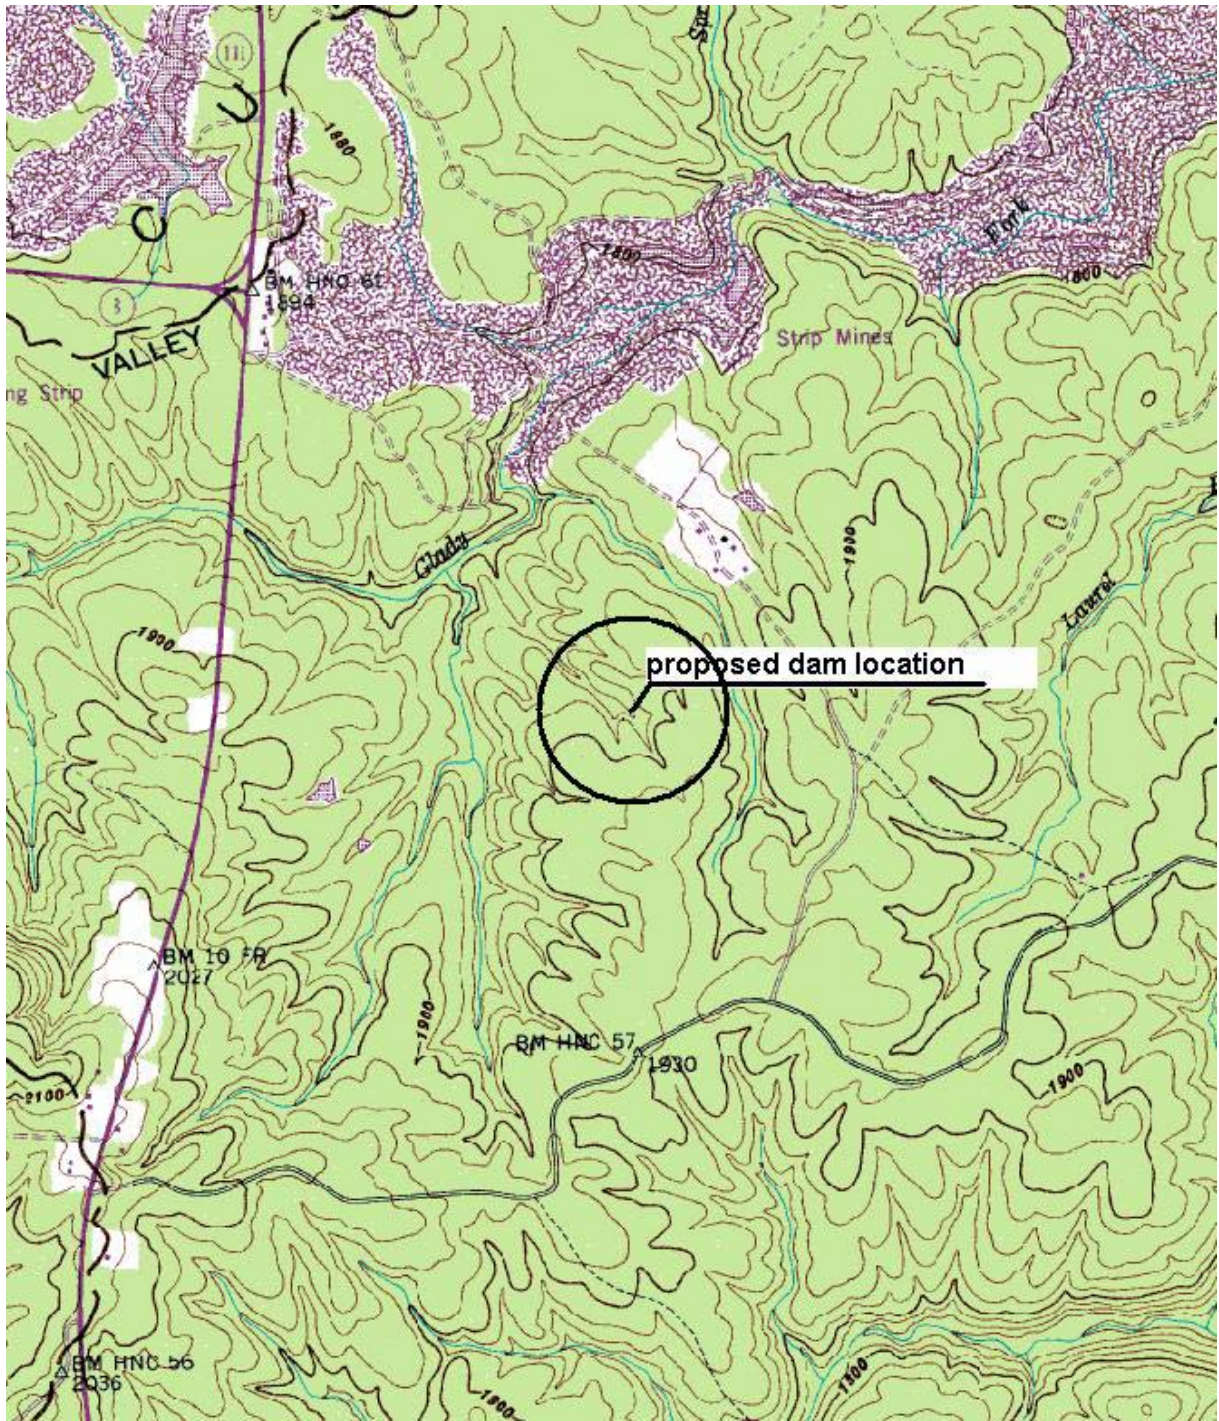

WATERSHED DESCRIPTION: The unnamed tributary is a first order stream reported to be intermittent. The receiving stream, Glady Fork has been assessed as failing to support classified uses because of metals and other impact associated with strip mining for coal. The tributary has not been assessed.

PROJECT DESCRIPTION: The proposed work involves construction of an earthen dam and impoundment of waters. The dam is proposed to be about ten feet high and 70 feet wide along the longitudinal axis, with the length of the pond (impoundment) to be about 130 feet. Flow from the dam is proposed to be via surface spillway.
